1. is it necessary to remove the SIM card before changing I.M.E.C?. 2. is it possible to change the I.M.E.C by flashing I.M.E.C software in BB PC/cellphone? 3. I.M.E.C software is not working in my BB PC and not able to change I.M.E.C number. What can I do? Answers 1. it is not necessary to remove the sim card. it is for the original phone and for the other sim card. 2. yes, but it is not convenient 3. use the right software

0 Report this post There is no software or application or any third party website that would allow you to change IMEI on BB. You can get the IMEI number from "Get IMEI" website and then you can see "Could not get the IMEI info" or if you have BB phone you can check it from "Reset" menu. Demo zen Can you please clarify what you mean by get imei? I have a Nokia Lumia 710 and I can get the IMEI from the Nokia page by using the download option and using the ID. The result comes as 710-0000-01-00-01-35 etc.. I think it is not possible to use it from the My Phone. IMEI is not the same as device ID (IMEI does not change for each device). It is just a unique identifier for each phone/SIM. There is no software or application or any third party website that would allow you to change IMEI on BB. You can get the IMEI number from
